

Kobiton Platform Overview

Accelerate the Delivery of Better Mobile Experiences

Kobiton's mobile testing platform provides reliable, real-device access, AI-driven automation, and seamless CI/CD integration to accelerate mobile app delivery.

We offer flexible deployment options and unparalleled device coverage to ensure faster testing, reduced time-to-market, and superior app quality—all in one platform built for today's mobile-first enterprises.

Solve Mobile DevOps Challenges for Modern Enterprises

Accelerate Continuous Delivery

Shorten regression cycles with real-device testing and seamless CI/CD integration. Catch defects early, collaborate easily, and ship higher-quality apps faster.

More Productivity, Less Cost

Boost productivity with no-code automation, Session Explorer, and Mobile Test Management. Run tests on real devices in parallel and cut down on testing costs.

Maximize Mobile Market Impact

Improve app quality with AI-powered visual validation, accessibility, and performance testing. Deliver flawless user experiences and amplify your market impact.

The Fastest Mobile Test Automation Platform In the Cloud or On-Prem.

Choose The Deployment Option That Serves You Best

Cloud

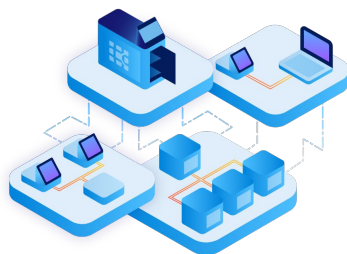

Kobiton hosts everything you need to execute tests on real mobile devices in the cloud.

Hybrid

Access the Kobiton Portal through the cloud. Host real mobile devices inside your organization's premises.

On-Prem

With true on-premises, you maintain full control over your mobile testing environment. Perfect for teams with strict security or compliance requirements.

About Kobiton

Kobiton empowers enterprises to accelerate mobile app delivery through manual, automated, and no-code testing on real devices. Kobiton's AI-augmented mobile testing platform uniquely delivers one-hour continuous testing and integration. Founded in 2016, Kobiton is venture-backed and headquartered in Atlanta.
